

Top Clean LIGHT

Ribbed Carpet

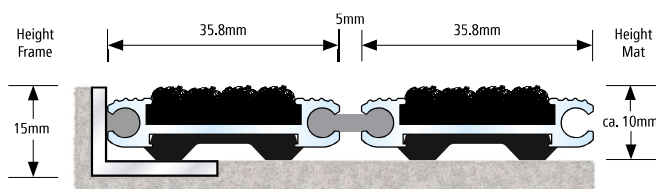

This Top Clean version is particularly suitable for installation without mat frames because the mats have approximately the height of floor tiles. Top Clean LIGHT has been designed for use indoors and in covered outdoor areas with normal foot traffic. The robust ribbed carpet has a high cleaning power. Top Clean LIGHT features extra sound insulation due to the complete solid rubber profile underside. It has permanent, lifelong dimensions, is rollable and easy to clean. This version is only provided in rectangular shape; no special shapes are available.

Aluminium Profile	Warp resistant aluminium profile (alloy ENAW 6060-T66) for fully supported installation.
Upper	Ribbed carpet*: UV-resistant, heavy-duty polypropylene, slip resistance properties R 11 conforming to DIN 51130 (German Industrial Standard), fire-resistant Cfl-s1 conforming to DIN EN 13501-1 (German Industrial Standard). *Ribbed carpet: Available on request in certified quality according GREEN LABEL PLUS.
Underneath	Base of the mat is mechanically fitted with rubber inserts for slip resistance and extreme noise reduction.
Connection	Flexible, pierced connection profile.
Colours Compensation Profile	Black or grey.
Profile Spacing	Top Clean LIGHT 10 mm: 5 mm.
Dimensions	When laying the mat inside of an existing mat frame, the front to back dimension is reached using a compensation profile (grey or black) when needed. When laying freely, the walking direction is an approximate measure (a little smaller or larger). Only rectangular mats are available for Top Clean LIGHT; no gaps, curves or diagonal cuttings.
Profile Colours	Natural aluminium. Profile can be supplied powder-coated to any RAL colour (for an extra charge).

Standard Colours

Due to technical limitations colours are only approximate.

All profiles feature highly effective impact sound insulation!

- For use indoors or in covered outdoor areas
